ULTIMATE INNOVATION

Erase the years with age-defying luminosity.

Vital Light

CLARINS UNVEILS THE ULTIMATE INNOVATION - Vital Light, the first anti-ageing skin care which treats all the original causes of the loss of skin luminosity. For the first time ever, Clarins has harnessed the exceptional revitalizing power of three pioneer plants in one unique formula to stimulate the natural elimination of oxidized proteins which are at the root of skin dullness. This ground-breaking skin care fights more than wrinkles to help recapture the health and vitality of youthful-looking skin. The result? Smoother, firmer skin with fewer wrinkles, reduced dark spots and a renewed deep luminosity. Skin feels firmer 74.8%*, luminous 78.5%* and nourished 93.9%*. www.clarins.com

A second chance for every skin.

New Repairwear Laser Focus™ softens lines, wrinkles, and sun damage. Sun, stress, pollution. Skin never forgets. Wrinkles arise. There's a dermatological procedure called a laser, which results in profound wrinkle repair. Wands of light. 3 sessions. Some discomfort. Costs about 800€. This serum encourages natural collagen for obvious reduction in wrinkles and improved texture in 4 weeks. At 12 weeks, the visible wrinkle-reducing power is remarkably close to a laser. 63%, to be exact. Different commitment, different results. Far different cost. And yet impressive results, guaranteed. Proof beyond all doubt: See before and afters at clinique.com
